

SPECIMEN – ILLUSTRATIVE ONLY, NOT A REAL ADJUDICATION

Verdict

Six criteria met, one failed on the written record. The meeting does not count.

REFERENCE	PARTIES	STANDARD APPLIED
Verdict MV-2026-0031 Meeting M-4471 Campaign C-0219	Buyer: [Buyer Ltd] Agency: [Agency Ltd]	The Millesimal Standard v1.0, in force at the date the meeting occurred.

MEETING

Held 11 August 2026. Contested by the buyer 12 August 2026 on criterion 2 (Fit). Defended by the agency 13 August 2026.

DETERMINATION

NOT QUALIFIED

The meeting fails criterion 2 (Fit). All other criteria are satisfied. Under the Standard, a meeting is Qualified only where all seven criteria are met.

CRITERION	DECISION	EVIDENCE RELIED ON
1 Role	PASS	Attendee listed by their employer as Head of Revenue Operations, a role with functional ownership of sales tooling purchases.
2 Fit	FAIL Contested	Companies House records 14 employees against the ICP floor of 50 agreed at campaign start on 4 July 2026.
3 Awareness	PASS	Meeting report records the attendee describing the vendor as “the renewals forecasting people” before the call began.
4 Need	PASS	Attendee described renewal tracking held in spreadsheets across three teams, a situation within the vendor’s solution space.
5 Consent	PASS	Calendar invitation named the vendor and described a product discussion. No incentive was offered.
6 Attendance	PASS	Both parties record the attendee joining for 31 minutes. Attendee confirmed independently on 12 August 2026.
7 Novelty	PASS	Account absent from the suppression list supplied 4 July 2026. Buyer produced no prior opportunity record.

On the failed criterion

WHAT THE AGENCY SAID

That the account was a fast-growing business and close enough to the profile to be worth the buyer's time.

WHY IT DOES NOT CARRY

The ICP recorded at campaign start sets an employee floor of 50. It is a checkable attribute and the account does not meet it. The Standard does not permit an attribute to be satisfied by proximity, and an ICP that could be met approximately would not be adjudicable at all.

WHAT IS NOT BEING DECIDED

Nothing here says the meeting was poor, or that the attendee was the wrong person — criterion 1 passed. Six of seven criteria were met, which is why the record names the criterion rather than the meeting.

SETTLEMENT

The fee for this meeting is returned to the buyer. The agency's submitted count increases by one; its cleared count does not.

Note on scope. This verdict determines only whether the meeting met the Standard. It makes no finding on the conduct of either party, the quality of the conversation, or the commercial outcome.

Right of reply. Either party may submit a written response within fourteen days. A response does not alter the verdict but is recorded alongside it and published with it wherever the verdict appears.
